Stainless steel housing with IP65 protection

Wall / stand / table mount

Bright graphical LCD

Programmable report and ticket printing

Flash memory to retain data in case of power failure

Various combinations of interface with PC / host

Applications

- Weighing and Printing
- Check Weighing : Hi-Lo-Pass
- Individual weight recording
- Weighing and recording with US FDA 21CFR compliant applications

Features

- Can store product information for 750 products
- Programmable statistical print outs
- 3 digital inputs and transistor outputs for Hi-Lo-Pass
- Communication ports :
 - RS232 / RS422 / RS485
 - Optional Ethernet TCP/IP
 - Optional USB for storing of data
- Optional tower lamp
- Selectable open protocol or Modbus(RTU) protocol
- 5 x 4 matrix tactile type keypad for entering numeric and alphanumeric values
- Optional programmable isolated 4-20 ma output
 - High performance digital to analogue converter for reliable weight readings.
 - Programmable response time for optimising speed and vibrations
